**PROPERTIES**

# **February 2024 Austin Real Estate Market Report**

A comprehensive report on the  
Austin and Central Texas real estate market.

Volume 2, Issue XIX

# Year to Date Sales – February 2024

1

Total year to date sales increased steadily from 2011 to 2019. Sales declined slightly during the first year of Covid. Then increased during the second year. In the summer of 2022, interest rates increased, causing a decline in sales. This year total year to date sales are slightly ahead of last year. Austin continues to have steady demand as more people move into the area. However, two factors are currently impacting home buying: rising interest rates and the increase in the average home cost.

# Homes Sold per Month – January 2024

2

The chart below follows the trends of numbers of homes sold during any given month. Last month there were 1,766 homes sold in Austin, Texas. This represents a 6.77% increase in homes sold last month compared to one year ago.

# Pending Sales per Month – February 2023

4

The chart below tracks the number of Pending Sales in the market. These are homes that are Under Contract that have yet to close. This month there are 2,342 homes Pending in Austin, Texas.

# Home Sales by Price Band- February 2024

5

Overall, we are in a Normal Seller's Market with 4.72 months of inventory. On average, home prices are showing Moderate Appreciation for the year. However, the Market is different based on demand and the number of homes for sale in each price range. Homes under \$700,000 are in a Normal to Extreme Seller's Market.

| Price Range              | # of Solds | Active Listings        | Months of Inventory | Sold % of List | Market                     |

# Absorption Rate: Months of Inventory in Austin 2012-2024

The **Absorption Rate**, also called “Months of Inventory,” is the best indicator of how fast or slow home values are moving up or down. The formula is the number of homes on the market divided by the number of homes sold in the prior month. With 6 to 9 months of inventory, the market is called **Balanced**, and home values remain stable with slight decreases or increases possible. Below 6 months is called a **Seller’s Market**, as home prices slightly increase due to demand.

# Mortgage Rates - 22 Year Summary

We monitor interest rates because they directly affect buying power. The higher the rate, the more it costs for a buyer to buy. When interest rates rise, it has the same effect as a seller raising his price and fewer homes sell because mortgage payments are higher. Conversely, when rates decrease more buyers qualify to purchase and home sales usually increase. The chart below tracks mortgage rates for the past 21 years.

### Current Rates

Conforming 30 yr: 6.59%  
Conforming 15 yr: 5.95%

Jumbo\* 30 yr: 6.89%  
\*(over \$766,550 loan amount)

# Average and Median Sold 22 Year Summary

8

The chart below follows the trend of average and median sales price per year. Last month the average sales price was \$547,881. The median sold price was \$440,000 last month. The average sales price in January is up 8.61% and the median sales price is up 2.14% from one year ago.

# Average Days on Market 2013-2024

9

Of the homes that sold last month, the average amount of days they had been on the market was 72 days. This is 25 days more than one year ago.

For five decades and three generations, West Austin Properties has been passionately committed to the core values that guide it.

- Highest integrity in every relationship.
- Unsurpassed knowledge of Austin and the ever-changing real estate market.
- Educating and empowering our clients so that they can make decisions that best meet their unique needs.
- Focus on the people and not the real estate; the quality of our service not the volume of our business.
- Build on the strengths and talents of our team's generational blend.
- Improving our community through service and mentorship.
